About me

Product Designer and Product Owner with experience in building and evolving digital products, working end-to-end across discovery, product strategy, UX/UI, requirements definition, prioritization, and delivery.

Experienced in payments, checkout, subscription platforms, back-office systems, customer portals, and API integrations, working closely with engineering teams, product teams, and stakeholders.

Skilled in defining user flows, wireframes, prototypes, interfaces, Design Systems, business rules, backlogs, acceptance criteria, and delivery processes.

I combine a user-centered mindset, strategic product thinking, and technical knowledge to transform complex problems into intuitive, feasible digital solutions aligned with business goals.
